Annex: Full game guide

Phase A – Player's exposition of the story and controls

A.1. Game basics

Al must pick fruits and vegetables of specific colours, as asked by the man.

- **Goal 1:** Bring back at least 2 red fruits
- **Goal 2**: Bring back something green, something yellow and something purple

Step A.2 – The Quest to save the king is revealed

The weather changes and someone comes screaming in panic that the King is dying. The little alchemist accepts to go save the King, returns to his little hut to prepare for the quest.

Phase B – Prepare the journey to the kingdom

B.1 - Gathering necessary items in the house

On the table in Al's house, there is a check-list of items to take with him, left by the Great Alchemist.

The player will find all the items in the house, except the compass, which is elsewhere. Every time that a new item of the checklist is found, the player can go back to the check list and see that the item is now checked.

B.2 – Get a compass

On leaving the hut, the protagonist has two options: The forest (east) or the farmer's (west).

Path of the forest: The alchemist heads for the forest. A real labyrinth. There are signs telling the direction, but they are written in "dog language", incomprehensible

to humans. Fortunately Sparkle (Companion dog) can help. Sparkle is near Al's hut, speaking to him will make him follow the hero everywhere in the game.

Encounter with the Hunter

The hunter has a compass for Al, but will only give it to him in exchange for food, because he is hurt and cannot hunt himself. Al has never killed an animal and doesn't want to have to do it. He has 2 options:

- kill a chicken just before the hunter's place, but it's against his principles
- Al can get all the ingredients to make an alternative recipe from the "book of spells and potions". If spared, the chicken will give Al an egg and the other ingredients can be found in the forest.

The hunter gives the compass to the alchemist after receiving his meal.

To the Farmer's: The farmer doesn't have a compass for the player, but will give Al a bottle of milk that will serve later.

Phase C – Reach the castle border

C.1 - Encounter with the Dark Mage

Al talks to the soldier that is guarding the way to the castle south of Al's house. With the compass, Al is allowed to pass and get to the river bridge.

Al sees the **Dark Mage** for the first time on the bridge. With an evil laugh, he will destroy it. The mage disappears immediately.

Al needs to find another way. A fisherman nearby may be able to help him.

C.2 – Help the fisherman

The fisherman has a boat that he can give to Al, but only if Al helps him by making him a youth potion.

Al collects the ingredients for the potion on the riverside: a blue flower, a red flower, a pink flower, brown mushrooms and a chicken feather.

To potion works, the fisherman becomes young again and leaves the boat to Al.

He also gives a map to Al that will guide him to the castle.

C.3 - On the river

When Al takes the boat and goes south to the castle, the Dark Mage appears again. He cursed the place and now the directions are all mixed up, just like in the forest. But with the map and the compass, Al and Sparkle find their way.

Phase D – The king's castle

The little alchemist finally arrives at the castle's ramparts. A guard is sleeping near the entrance.

D.1 – Encounter with the castle guard

The guard wakes up when Al tries to get to the castle. He doesn't want to let him pass at first, but with the **blue eloquence bracelet**, Al convinces him, in exchange for a bottle of milk.

If Al does not have the bracelet or the milk, go back to his house or to the farmer's. The bridge is now repaired, it should be faster than before to come back.

Phase E – Save the King

E.1 – Defeat the Dark mage

Al enters the main door of the castle and goes to the king but the Dark Mage is there too. He begins to cast dangerous spells on the alchemist.

If Al has the **purple necklace**, as supposed to, powerful spells are available and defeating the Dark Mage is possible without much issues.

With the **red necklace**, however, only weaker spells are available, and without any necklace at all, only his bare fists. In this circumstances, Al will probably have to go back to his house and get the proper necklace to defeat the Dark Mage.

Al wins the battle and the Dark Mage cannot move.

E.2 – The end of the game

With the Dark Mage immobilised, Al can try to cast a spell to reveal his identity. The spell only works if Al has a sufficient karma score (>1). The ending of the game is then revealed to the player.
